Ports, Protocols, and IP Address Ranges for Firewalls ...

I need to retrieve about 500 devices IP's and ports from our switches for our VOIP provider. I do not want to sort through all of that data manually. It's 2017, I feel like this should be a feature by now or someone should have a way to pull every port's assigned DHCP address with ease, instead of only listing MAC address and port.

setup. I have 1 24 port module at 1st slot. I would like to know how to config a IP address to the port? . I have 2 Cisco IP Phone connected to the switch.

How to config an IP address to a port i... - Cisco Community

However, to perform switch management over the network or use protocols such as SNMP, the switch will need to have an IP address. The IP address is configured under a logical interface, known as the management domain or VLAN. Usually, the default VLAN 1 acts like the switch's own NIC for connecting into a LAN to send IP packets.
