Cause and effect study guide Flashcards | Quizlet

As has been stated, the goal of cause and effect sentences is to determine how various events or phenomena are connected. Use the thesis to state what you consider as the primary cause or effect. You can organize your essay by starting with the cause followed by the effect or vice versa. Either way, make sure to use strong evidence.

Cause and Effect Essay. Useful Writing Tips, Examples, and ...

A cause and effect relationship is when something happens that makes something else happen. In other words, the cause creates the effect. Cause and effect relationships are often used in informational text. For example, a text may say that when the weather is cold, a person may start to shiver. The cold weather here is the cause and the shivering is the effect of the cold weather.

Download Cause And Effect Study Guide

Cause and effect refers to the relationship between two events or occurrences. To put it simply, it is when one thing causes something else to happen. A cause is WHY something happens. An effect is WHAT happened as a result of something else. To find the cause, ask yourself: Why did this happen? To find the effect, ask yourself: What happened?
