There are both career and life benefits associated with mentorship, and it is increasingly recognised as a bidirectional process that benefits both mentors and mentees. Recently, mentoring has been considered an essential step in professional and personal development, particularly in the field of health care.

Mentorship in the health professions: a review

Health professionals play a central and critical role in improving access and quality health care for the population. They provide essential services that promote health, prevent diseases and deliver health care services to individuals, families and communities based on the primary health care approach.
