Open Library is a free Kindle book downloading and lending service that has well over 1 million eBook titles available. They seem to specialize in classic literature and you can search by keyword or browse by subjects, authors, and genre.

Lactose Dfe Pharma

Pharmaceutical grade lactose has been used as an excipient for more than a century. Because of its versatility, it is the backbone of many successful formulations. We can supply it to you from multiple production sites around the globe. In any quantity, and always with the same consistent high quality. That's why we are the global market leader: a truly unique position. Lactose

Pharmaceutical grade lactose | DFE Pharma

Lactose is also known as milk sugar. Lactose is a carbohydrate, and as such a disaccharide. One molecule of lactose is built from one molecule each of two other carbohydrates, galactose and glucose. The galactose and glucose moieties are linked together through a so called beta-(1,4)

glucosidic linkage.

Lactose - DFE Pharma

Pharmatose® and Lactochem® are DFE Pharma's brand names for pure white and highly consistent crystalline, milled lactose monohydrate grades. Lactose is mechanically milled to varying degrees of particle sizes allowing pharmaceutical companies to choose the grade best fitting their formulation needs.
