#2, Step 7, Question 2. Where on or within the fold are the youngest rocks located in this type of fold? A.They appear on the outside of the fold B.They appear on the inside of the fold C.Neither of the above because the youngest rocks are in the middle layer D ...

Record your answer from Lab Exercise 2 Step 7 Question 1 ...

Relative dating tells scientists if a rock layer is "older" or "younger" than another. This would also mean that fossils found in the deepest layer of rocks in an area would represent the oldest forms of life in that particular rock formation. In reading earth history, these layers would be "read" from bottom to top or oldest to most recent.

WHO'S ON FIRST? A RELATIVE DATING ACTIVITY

Are you looking for a trivia quiz on geological dating? Geology has helped in getting a lot of insight on the past,

Access PDF Matching Rock Layers Lab Answer Key

especially when it comes to artefacts or remains that have been found in excavations over the years. There are different tests that can be administered to find the date a rock or artefact belongs to. This quiz will help refresh your understanding of such techniques and dating rocks.

A Trivia Quiz On Geological Dating! Test - ProProfs Quiz
