The competition problems and solutions from the China Mathematical Competition 2002-2005, China Mathematical Competition - Extra Test 2002-2005, China Mathematical Olympiad 2003-2006, China Girls' Mathematical Olympiad 2003-2005, China Western Mathematical Olympiad 2002-2005 and International Olympiad 2003-2006 are presented.

Review: Mathematical Olympiad in China | EMS

viii Mathematical Olympiad in China examinations, six students are finally selected to form the national team, to take part in IMO in July that year. Because of the differences in education, culture and economy of West China in comparison with East China, mathematical competitions in the west did not develop as fast as in the east.

Mathematical Olympiad in China : Problems and Solutions

Problem Collection for China History and System What is now known as Chinese Mathematical Olympiad was established in 1986 and was initially called ("Winter Camp"). The olympiad is organized in the IMO format and takes place in late January or early February. Nevertheless, mathematical competitions in China have a much longer tradition.

IMOmth: China: The IMO Compendium

This page contains problems and solutions to several USA contests, as well as a few others. Hardness scale. Here is an index of many problems by my opinions on their difficulty and subject matter. The difficulties are rated from 0 to 50 in increments of 5, using a scale I devised called MOHS. (The acronym stands from "math olympiad hardness scale", pun fully intended).

Evan Chen & Problems

The International Mathematical Olympiad (IMO) is a competition for high school students. China has taken part in the IMO 21 times since 1985 and has won the top ranking for countries 14 times, with a multitude of golds for individual students.

Mathematical Olympiad In China (2009-2010): Problems And ...

Up to 2011, China had been awarded the overall team champion for 17 times. The book throws light on the effort involved and organization of that transition. The process whose ultimate end is the selection of the Chinese IMO team is multistage, with several regional olympiads and a special olympiad for girls to boost their participation.

International Mathematical Olympiad

The International Mathematical Olympiad is one of the most prestigious mathematical competitions in the world. In January 2011, Google sponsored €1 million to the International Mathematical Olympiad organization.

International Mathematical Olympiad - Wikipedia

The International Mathematical Olympiad (IMO) is a very important competition for high school students. China has taken part in the IMO 31 times since 1985 and has won the top ranking for countries 19 times, with a multitude of gold medals for individual students.

Xiong Bin, Lee P.Y. (Eds.) Mathematical Olympiad in China ...

Math Prize for Girls Olympiad 2011 Solutions Because 4ABE r is congruent to 4CAD r, we have 6BAE r = 6ACD r. In other words, using the angle variables in the gure, x = z. Because 6A is 60 , we have x + y = 60 . Hence y + z = 60 . Because the angles of 4AP rC add up to 180 , we have 6AP rC = 180 (y + z) = 180 60 = 120 : Consider two points P r and P s. By the previous paragraph
