Tribute AC Compressor. Like we mentioned previously, the Mazda A/C compressor is the main component of your Mazda AC system. The function of the AC compressor is to take the refrigerant, in gas form, and pressurize it so that it cools the air. An engine belt that the compressor is attached to performs this process.

The 6-rib serpentine belt drives the supercharger using Mazda's own automatic tensioner. With this system installed, engine power increases to approximately 225 HP at the wheels, basically turning your car into the Mazdaspeed that Mazda never made. To put that power into perspective, the Super20 show car clocked a 5.3-second 0-60 mph time.
