### MSc Research Methods course | City, University of London

The MSc Social Research Methods (Population) is offered as a 1+3 PhD programme, in conjunction with the MPhil/PhD Demography/Population Studies. Teaching and learning in Michaelmas Term 2020 Information on how LSE will deliver teaching and learning in Michaelmas term can be found [here](#) .

### MSc Social Research Methods - LSE Home

A number of research groups have successfully derived MSC-like cells from iPSC, and these cells are emerging as an attractive alternative to primary MSC. In this study, we developed a simple and reproducible method for inducing iPSC into MSC-like cells, without the requirement of any exogenous differentiation factors.

### **2018 Annual Meeting Concurrent3 - MemberClicks**

Regression analysis is a quantitative research method which is used when the study involves modelling and analysing several variables, where the relationship includes a dependent variable and one or more independent variables. In simple terms, regression analysis is a quantitative method used to test the nature of relationships between a dependent variable and one or more independent variables.
