### Modernism | Definition, History, & Examples | Britannica

Modernism is both a philosophical movement and an art movement that arose from broad transformations in Western society during the late 19th and early 20th centuries. The movement reflected a desire for the creation of new forms of art, culture, philosophy, and social organization which reflected the newly emerging industrial world, including features such as urbanization, new technologies ...

### Modernism - Wikipedia

Modern architecture, or modernist architecture, was an architectural style based upon new and innovative technologies of construction, particularly the use of glass, steel, and reinforced concrete; the idea that form should follow function (functionalism); an embrace of minimalism; and a rejection of ornament. It emerged in the first half of the 20th century and became dominant after World War ...

Modern architecture rejected all influence of history and tradition in favor of new forms based on the principles of modernism. Industrial Materials Modernism was based on industrial materials that made new forms of architecture possible.

### 19 Characteristics of Modern Architecture - Simplicable

Modernism introduced a new kind of narration to the novel, one that would fundamentally change the entire essence of novel writing. The "unreliable" narrator supplanted the omniscient, trustworthy narrator of preceding centuries, and readers were forced to question even the most basic assumptions about how the novel should operate.
