As many educators point out, the trend toward emphasizing algebraic thinking, problem solving, and communication in K-6 school mathematics is not a new trend. Still, as NCTM's Cathy Seeley acknowledges, "Making that change is pretty challenging." It's helpful, therefore, to keep in mind that Young learners can be high-level learners.

mathematics curriculum. The second trend we have identified is that of a new unification of mathematics. This is discussed at some length in [3], so we will not go into great detail here. We would only wish to add to the discussion in [3] the remark that this new unification is clearly discernible within mathematical research itself.
